

AGENDA
COUNCIL COMMITTEE MEETING
MUNICIPAL DISTRICT OF PINCHER CREEK
May 23, 2023
2:00 pm
Council Chambers

- 1) Approval of Agenda
- 2) Delegations
 - a) 2:00 to 2:30 – TC Energy
- 3) Closed Session
 - a) Property Discussion – FOIP 24.1.a
- 4) Round Table
- 5) Adjournment

OUR PURPOSE

Delivering the
energy people
need, every day

SAFELY. INNOVATIVELY. RESPONSIBLY.
COLLABORATIVELY. WITH INTEGRITY.

MAY 23, 2023

Our energy network

Natural gas pipelines

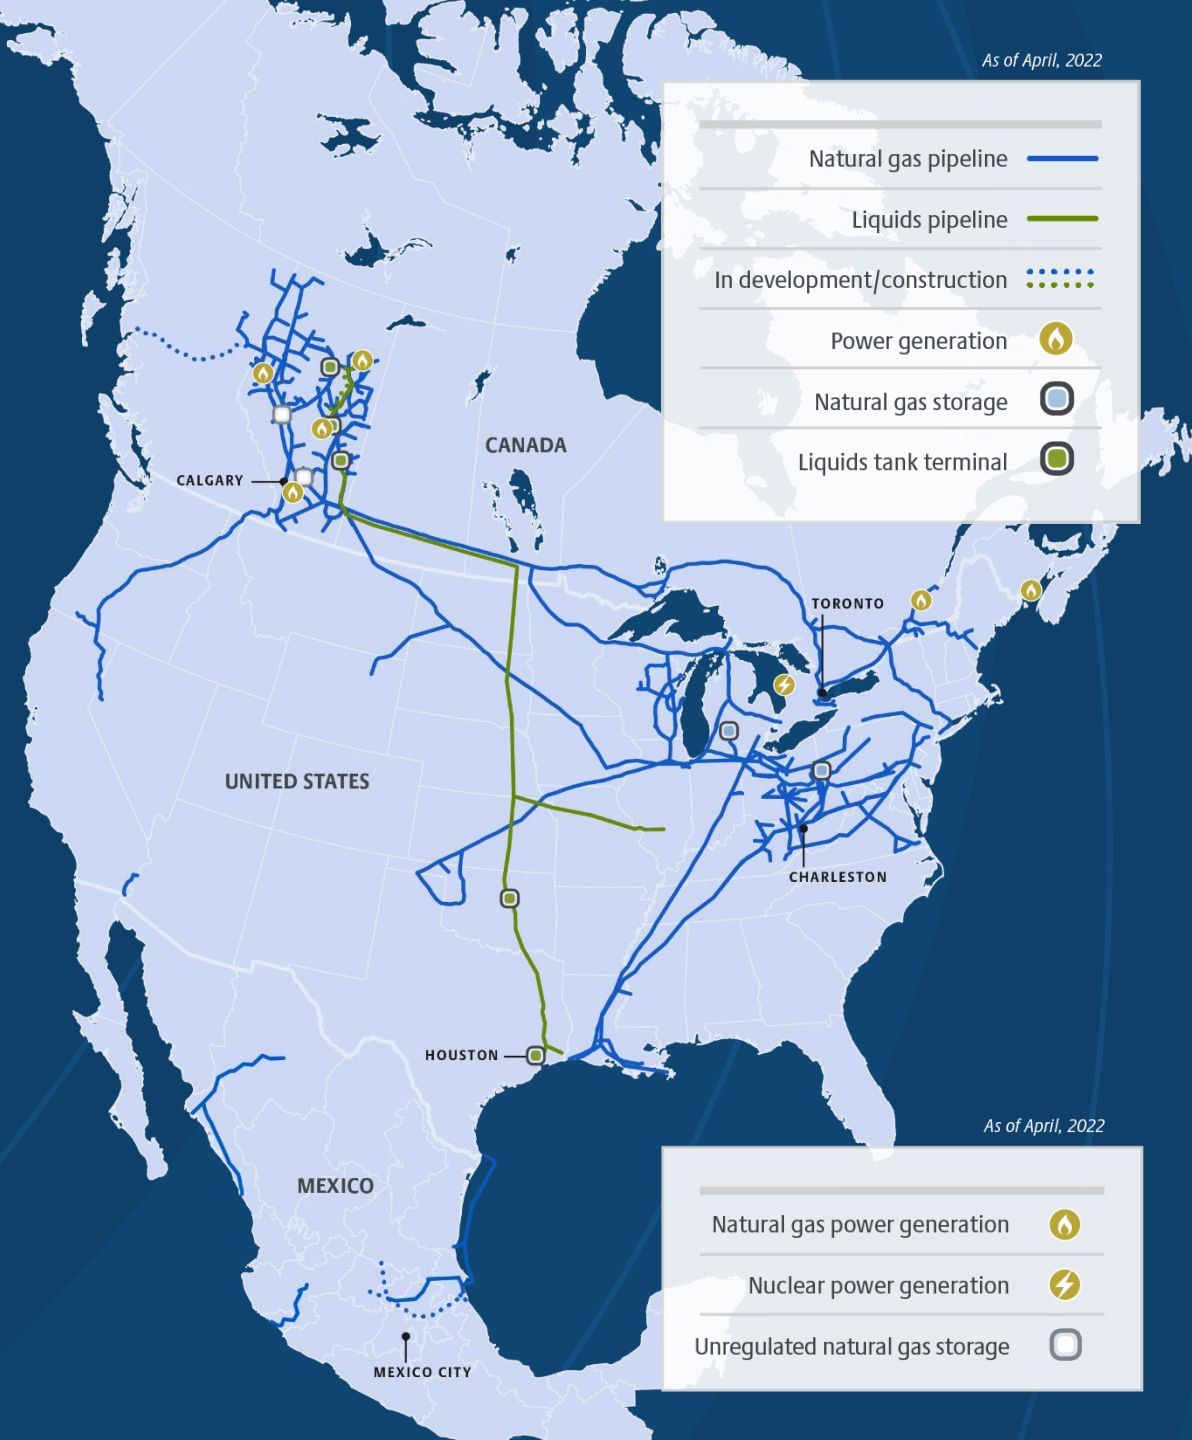

25% of the natural gas that North America uses every day

Oil and liquids pipelines

~20% of the western Canadian oil that goes to the U.S. Midwest and Gulf Coast

Power and energy solutions

Powering more than 4 million homes

NGTL West Path Delivery 2023

NGTL is a wholly owned subsidiary of TransCanada PipeLines Limited, an affiliate of TC Energy Corporate (TC Energy) is progressing future growth on our NGTL System with the NGTL West Path Delivery 2023 Project.

The Project is regulated by the Canada Energy Regulator (CER). Its application was filed under Section 183 of the Canadian Energy Regulator Act in Q4 2020, and approval was received in Q4 2022.

The NGTL West Path Delivery 2023 Project is necessary to supply growing demand in southwest Alberta, Southern B.C. and downstream North American markets, with natural gas produced in Western Canada.

Regulatory Compliance

The project is governed by various regulatory bodies including:

- **Federal Agencies:**
 - Canadian Energy Regulator (CER)
 - Canadian Environmental Assessment (CEA) Act, 2012
 - Environment Climate Change Canada (ECCC)
 - Fisheries and Oceans Canada (DFO)
- **Provincial Agencies:**
 - Alberta Environment & Parks (AEP)
 - Alberta Culture, Multiculturalism and Status of Women

Project Specific Approvals

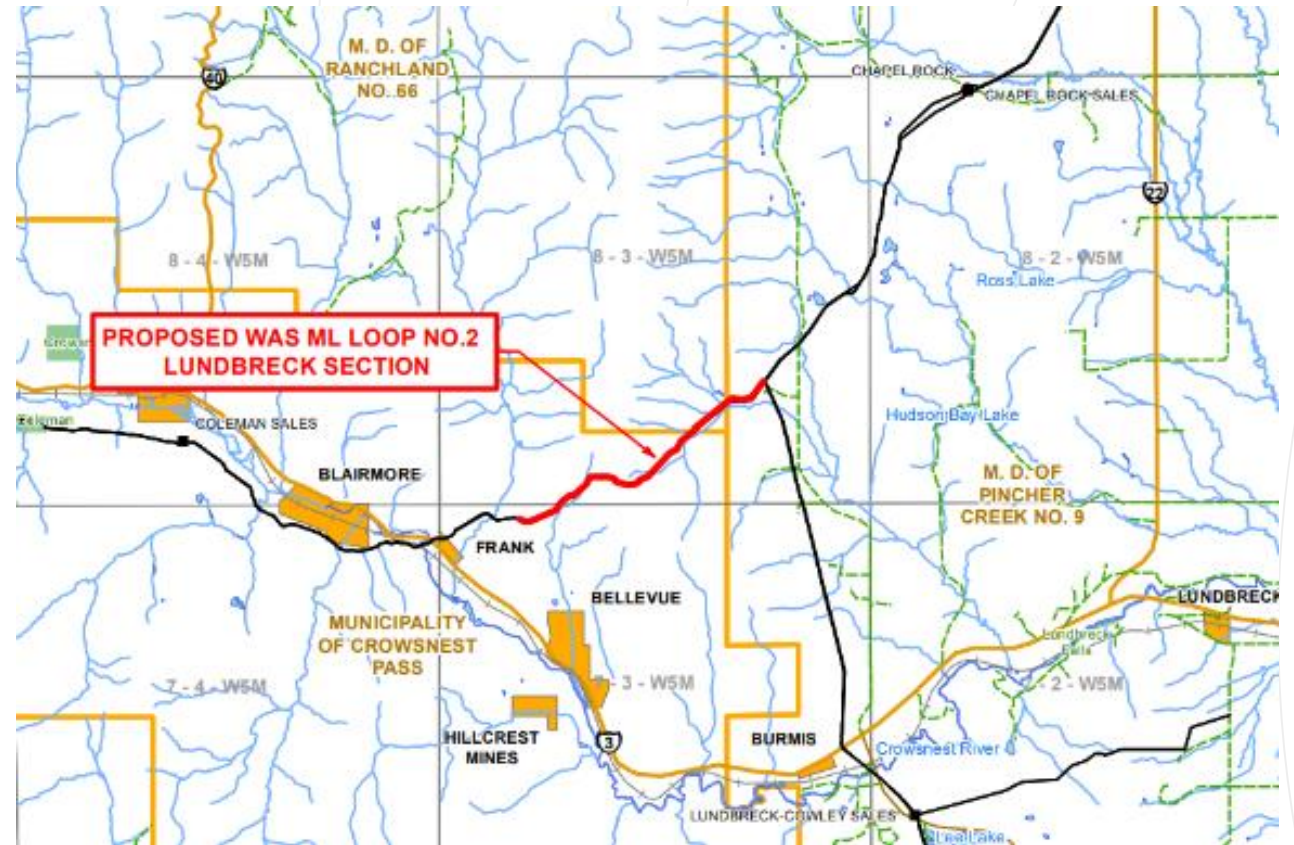

- Certificate of Public Convenience and Necessity (CPCN)
- *Fisheries Act* Authorizations
- AB land disposition (DPL, DPI's, DML's, LOC's, TFA's)
- *Historic Resource Act* Approval
- *Water Act* Approval (WAIR's/WAIF's, COP's, TDL's)

Lundbreck Section

- Approximately 7 km of 48-inch diameter pipeline
- Approximately 3 km northwest of Bellevue, A.B. within the M.D. of Pincher Creek, the M.D. of Ranchland and the Municipality of Crowsnest Pass.
- Prime Contractor is Surerus Murphy Joint Venture (SMJV)
- Construction is anticipated to start June 1, 2023

Q3 2019	Engagement Start
Q2 2020	Project Notification
Q4 2022	Approval Received
Q1 2023	Early Clearing and Access Prep Work
Q3 2023	Mainline Construction Start
Q4 2023	In Service Date

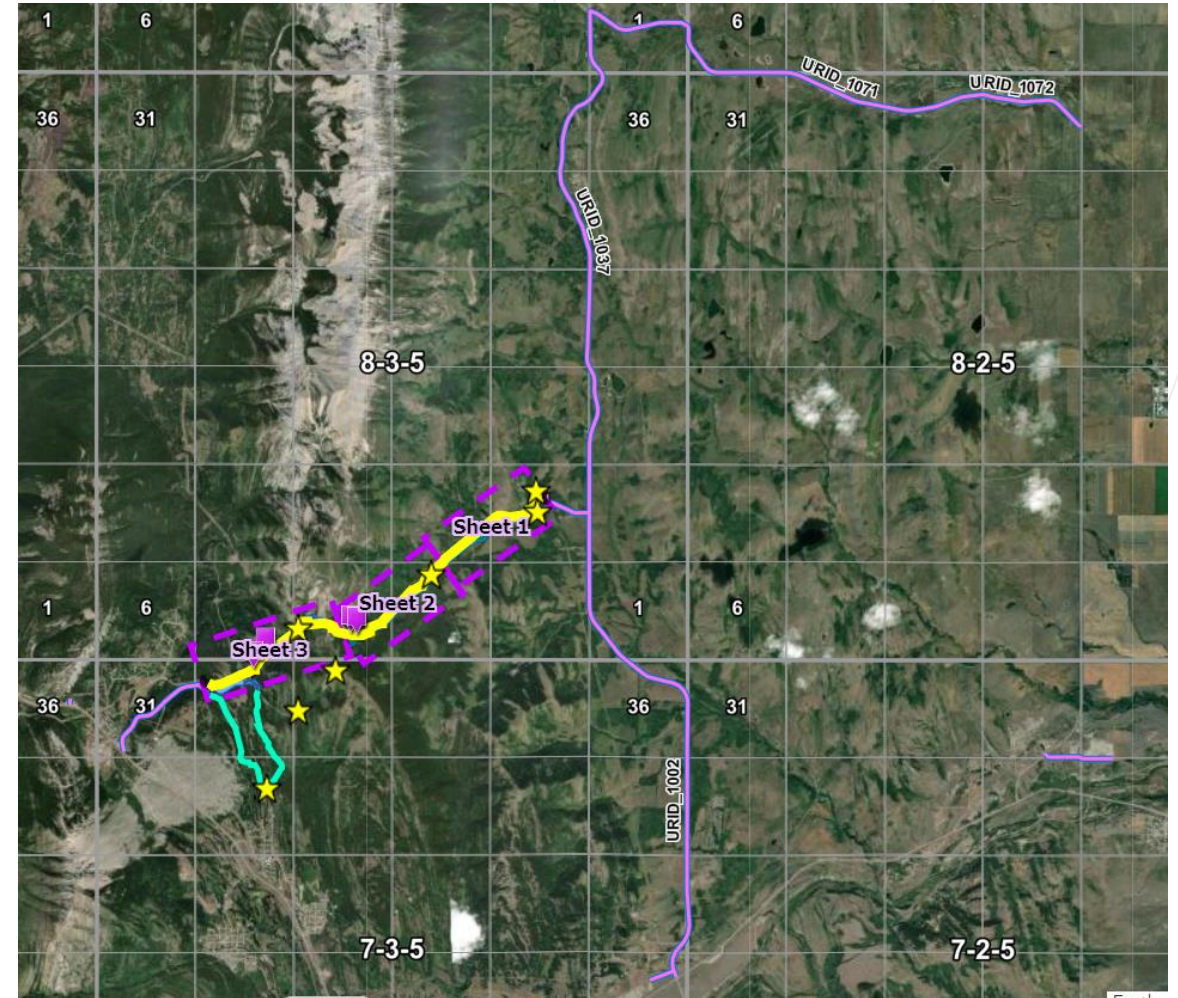

Access Strategy

North Burmis Road

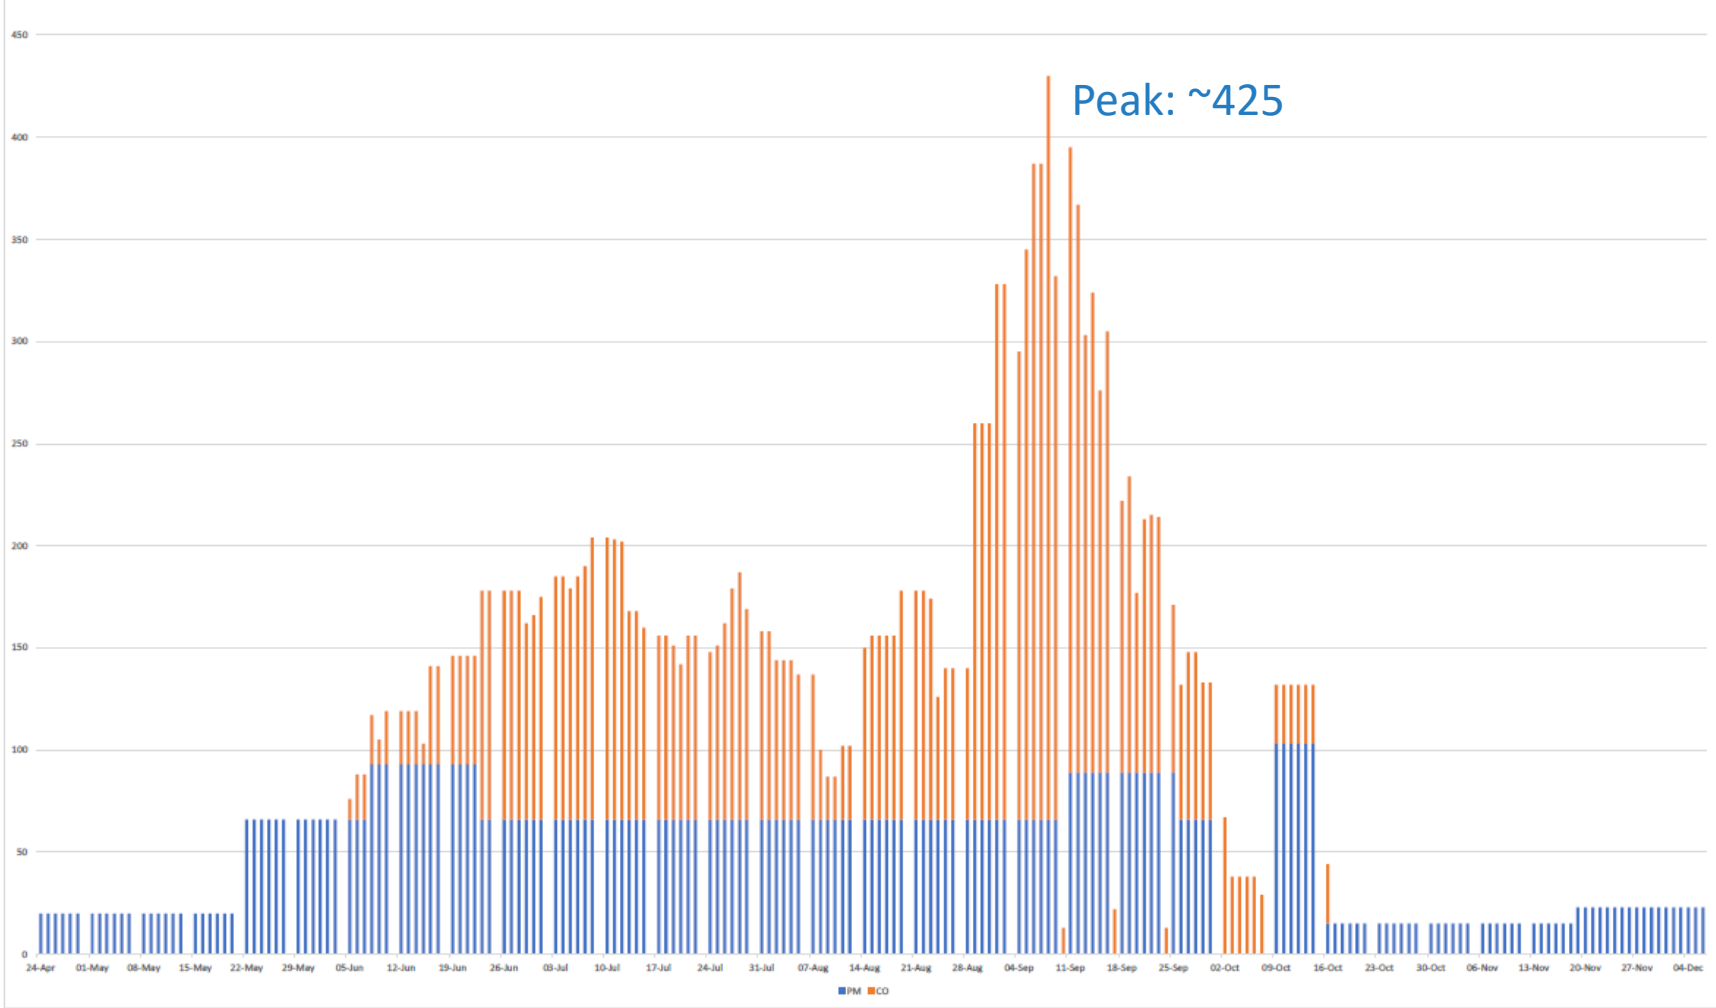

- Light traffic use only
- Dust control will be managed by the county, in consultation with NGTL

Chapel Rock Road

- Heavy loads are planned to be brought in from the north to kickoff to avoid any damage to the Burmis road pavement

Worforce Curve

Construction

- Project employees and contractors adhere to TC Energy's policies and procedures on safety, responsibility, integrity, diversity, inclusion and fair employment to foster the well-being of workers and nearby communities.
- TC Energy pipelines are built to meet or exceed industry and government standards for safety and reliable operation.
- Strive to limit noise, dust and smells throughout construction and operation of the Project.
- Make every effort to minimize the impact of traffic during the life of the Project.
- Where effects are predicted, NGTL implements mitigation and enhancement measures. We monitor mitigation and enhancement measures throughout construction, and report to the regulator to confirm that they were followed.

Environmental Performance – Why?

Environmental performance is everyone's accountability.

- TC Energy (and by extension NGTL) has made regulatory, stakeholder and corporate commitments to ensure the integrity of the environment.
- You have made a commitment to work with TC Energy (NGTL) in line with our Environmental Principals.
- TC Energy and our Contractors policies related to environmental protection and stewardship align.
- Regulatory agency inspections with poor outcomes could result in regulatory requirement non-conformances, project delays, and could negatively impact TC Energy's reputation with regulators and the general public.

IT'S THE RIGHT THING TO DO!

Environmental Protection Plan (EPP)

The EPP identifies:

- Environmental protection measures and commitments that must be adhered to during construction
- Project-specific environmentally sensitive resources and locations

Social impact program: Build Strong

Our goal is to help build strong and vibrant communities through mutually beneficial relationships.

- Types of funding: **donations** to non-profits, registered charities, associations, and municipalities, **scholarships** to post-secondary students
- donated to over **2,000** organizations and students where we live and work across Canada, the U.S. and Mexico (2021)
