PUBLIC SERVICE ANNOUNCEMENT

July 31, 2019

Carcass and Butchering Waste Collection Site

Following a series of discussions with stakeholders, residents and landfill management, it was determined that hosting a centralized collection site for animal carcasses and butchering waste at the Crowsnest Pincher Creek Landfill, could be a short-term solution to continue to provide this service to our residents.

And while the M.D. was hopeful to come up with a solution that would be both economical, and convenient for the users in the area, there was not a solution that would meet the needs of all involved. Unfortunately due to declining numbers of residents that would be utilizing this service, along with the unknown and escalating costs to the taxpayers, a centralized bin does not make fiscal sense for the M.D. at this time.

The M.D. will continue working with eligible ranchers in the carnivore conflict area to allow for deadstock bins for the removal of cattle, but no other animals can accepted in these bins. If you require more information, please contact the office at 403 627-3130.

Regards,

CAO Troy MacCulloch
