Latest Update

As of November 15<sup>th</sup>, construction is ongoing on all fronts within the Hamlet of Beaver Mines. The Wastewater project has been approved and remains under Appeal. The MD remains confident in the science/data of our design to successfully conclude the appeal. We continue to recognize that landowners have the right to appeal and it remains our desire and commitment that the wastewater system has minimum impact on the quiet enjoyment of homes and lifestyles within and surrounding the Hamlet of Beaver Mines.
